

**ROZOL  
PARAFFINIZED PELLETS**

**For Use And Distribution Only In the State of Idaho  
for Control of Richardson's Ground Squirrels**

It is a violation of State and Federal law to use this product in a manner inconsistent with its labeling.

This labeling must be in the possession of the user at the time of pesticide application. All applicable Directions, Restrictions, and Precautions on the EPA registered label are to be followed.

**DIRECTIONS FOR USE**

Use this product in areas where Richardson's ground squirrels (*Spermophilus richardsoni*) are found, including levee and ditch banks, along fence lines, around farm buildings, in orchards or other crop or non-crop areas.

Place in secured tamper-resistant bait stations at locations where ground squirrels are likely to encounter them. Place these stations near their burrows at 20 to 100 foot intervals, depending on population density. Place 2 to 4 pounds of bait for at least 30 days or until feeding has stopped. Check stations for at least 30 days or until feeding has stopped. Check bait stations regularly to insure there is constant supply of bait. Pick up and burn or bury all visible carcasses of animals found in or near treated areas.

NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
